

TO FOSTER ATHLETICS

IN POLICE DEPARTMENT

Maj. Pullman Discusses Plans for Interesting Members in Physical Development.

A movement designed to increase interest in athletics among the members of the metropolitan police force was launched today in the office of Maj. Pullman, superintendent of police. The captains and lieutenants of the precincts gathered in the office to hear the plans for the establishment of various branches of athletics in the police force. These plans were discussed by Maj. Pullman and Maurice Joyce, a physical director.

For some time Maj. Pullman has had the idea of establishing athletics in the department. He believes the members of the force will be better fitted for their duties if they indulge in athletics, and that they will be otherwise greatly benefited.

Those who have been a physical director here for many years and trained the athletes of Georgetown University for the last few years, offered his services to Maj. Pullman to train the men.

Joyce made an address to the captains and lieutenants, in which he outlined his plans.

To Talk With Privates.

He proposes to visit the various police houses and talk with the privates and obtain their co-operation in the matter. Leaders, one for each precinct, are to be instructed by Joyce in his own athletic drill, which is said to consume but eight or nine minutes.

These leaders will in turn instruct the other members of their precincts.

It is proposed, said Maj. Pullman, to hold an athletic meet each year, as is done in Philadelphia and New York, when the policemen will contest with each other for prizes.

There have some excellent athletes in the department," said Maj. Pullman, "and I think the men ought to be given the opportunity to keep up in them. We have no base ball team, basketball team or other teams at present, but I expect to see the men take readily to the movement."

Maj. Pullman spoke of the enthusiasm shown in the members of the force in the recent summer tournament. He said he expected the movement for the fall would be put in full force some time next month.

PREACHER LOST IN FOREST.

Government Rangers Will Aid in Hunt for Rev. T. R. Sampson.

The Secretary of Agriculture is in receipt of a letter from Frank W. Sampson informing him that his father, Rev. Thornton R. Sampson, has been lost in Estes National Park, Col.

President Wilson, Attorney General Gregory and Postmaster General Burleson be notified. Dr. Sampson is also a close friend of Secretary Houston.

Dr. Sampson, whose home is at Austin, Tex., is a close friend of President Wilson. Four days' search by scouts through the Estes Park has proved futile.

Forest service officials were immediately instructed to enlist the services of their rangers, twenty-two in number, in the forest in which Dr. Sampson is lost. Estes Park, forest service officials say, has about 100 miles of forest service telephone lines, in addition to public telephone lines, and this should facilitate the search for the missing clergyman.

ANNAPOLIS FRICTION FEARED.

Suggested That Officer of Marine Corps Be Detailed There.

A suggestion that an officer of the Marine Corps be assigned to the department of discipline at the Naval Academy at Annapolis for the instruction of midshipmen in drill and military tactics has been made to Secretary Daniels of the navy by leading officers of the Marine Corps. The matter is under advisement. It was said today at the Navy Department.

The appointment of a marine officer to such a position at the Naval Academy would lead to some friction between the navy and the Marine Corps, it was suggested today.

DISCUSS GREATER REVENUE.

Secretary McAdoo and Mr. Kitchin Talk of Plans for Increase.

Revenue legislation in the coming session of Congress was discussed today at a long conference between Secretary McAdoo of the Treasury and Representative Kitchin of North Carolina, majority leader of the next House.

Democratic leaders are convinced that legislation must be enacted to swell the government receipts, in view of the prospects of continued war in Europe. Customs receipts have not shown any tendency to increase, and internal revenue receipts are not equal to those of a few years ago. The certainty that large appropriations will be demanded for the army and navy also must be taken into consideration.

McAdoo takes the position that available plans cannot be made until the estimates of all the departments have been received.

SUFFRAGISTS CLAIM GAINS.

Mrs. McCormick Reports 236 Members of House for Amendment.

NEW YORK, September 17.—Two hundred and six members of the new House of Representatives will vote for the federal amendment for woman suffrage, according to a report made by Mrs. Medill McCormick of Chicago to the executive board of the National American Woman Suffrage Association at a special meeting held here.

Mrs. McCormick's report puts 296 as the "minimum figure," with every likelihood that it will be increased before December as additional reports are received, and as a direct result of the pressure which the women are now planning to exert in the various congressional districts.

According to this estimate the women have increased their strength in the lower house by 22 votes over the 174 which they mustered for the so-called "Susan B. Anthony amendment" last January.

Will Urge Norfolk Dry Dock.

Secretary Daniels today informed a delegation of business men from Norfolk and Portsmouth, Va., headed by Senators Martin and Swanson and Representative Holland that he would recommend to Congress again that a giant dry dock be erected at Norfolk.

The delegation urged particularly that the Norfolk navy yard be allowed to build a number of submarines.

No Jurisdiction Over Big Loan.

In a letter sent today to Senator Lewis of Illinois the federal reserve board announced that it has no jurisdiction over the negotiation of loans with foreign governments, and that it has no knowledge of the attempt of the Anglo-French commission to secure a loan in this country, except what it has learned through the newspapers.

The board's letter was in reply to one from Senator Lewis protesting against the billion-dollar loan.

ITALIAN RIFLE FIRST

SEAGIRT N. J. September 17.—E. Minervini, member of one of the teams here from the Italian Rifle Association, with a score of 90, annexed the first money in the Wingate rifle match.

The scores follow:

E. Minervini, Italian Rifle Association, 90; George W. Chesley, William A. Tewes, New Jersey, 88; Sergt. O. Schriber, Marine Corps, 86; A. B. Leavitt, New York, 84; W. E. Hession, New York Athletic Club, 83; F. Gerbolini, Italian Rifle Association, 80; W. E. Reynolds, Nebraska, 75; L. Alfieri, Italian Rifle Association, 74; A. P. Lane, New York, 73; V. Minervini, Italian Rifle Association, 72; C. Deffell, Italian Rifle Association, 72; L. Reali, Italian Rifle Association, 72.

The Zeller Rifle Club and the Italian Rifle Association had the Old Guard match all to themselves this morning and shot an interesting contest, which resulted in a win for the Zellers by a score of 255. The Italian team scored 245.

The scores follow:

Zeller—W. A. Tewes, 42; J. W. Hession, 43; G. W. Chesley, 44; A. B. Leavitt, 42; Thomas Keller, 42; W. E. Reynolds, 42. Total, 255.

Italian Rifle Association—E. Minervini, 41; L. Reali, 39; V. Minervini, 40; L. Alfieri, 42; C. Deffell, 41; F. Gerbolini, 42. Total, 245.

VON JAGOW IS PROMOTED TO THE RANK OF MAJOR

BERLIN, September 17.—Gottlieb von Jagow, foreign minister, has been promoted to the rank of major in reserve of the 3d Regiment of Hussars. He was a lieutenant of landwehr, retired.

OUT OF COMMISSION.

Submarines of F-4 Type to Be Examined Thoroughly.

Secretary Daniels today ordered all submarines of the F-4 type out of commission until a thorough examination of them can be made. His action was taken upon the report of the board of inquiry investigating the sinking of the F-4 at Honolulu March 25, which ascribes the disaster to a battery explosion. The F-1, F-2 and F-3 will probably be brought under convoy to the Mare Island navy yard for examination.

HONOLULU, September 17.—From an unofficial, but apparently trustworthy, source it is learned that electricians who have been making an examination of the submarine F-4, lost outside Honolulu harbor, March 25 and now in dry dock, discovered that the fuses on all four batteries had been blown out, indicating that this was the cause of the disaster, which resulted in the death of the vessel's crew of twenty-two men.

Later this statement was issued at the Navy Department.

"Secretary Daniels announced that careful examination of the F-4 by the board of investigation appointed for the purpose showed that in the batteries the lead plates were badly corroded through in places and that the corrosion existed in the steel plates in several places."

"Secretary Daniels has ordered under examination the F-1, F-2 and F-3, which will probably be sent to the Mare Island navy yard for thorough overhauling with a view to correct this interest in batteries, and in the meanwhile has issued instructions suspending all exercises of submerged runs of these boats."

SOLDIERS WILL GIVE AID.

To Act as Orderlies and Outriders During G. A. R. Encampment.

Dr. Louis F. Battle, chairman of the medical committee for the Grand Army encampment, accompanied by Drs. C. R. Conklin and Samuel Watkins, was at Fort Myer today arranging for the assignment to duty with the medical committee here during the Grand Army encampment of fourteen outriders for the ambulances and twenty-two orderlies, who will be on duty at the hospital stations. The consent of the War Department to the use of these soldiers had been previously granted.

Incidentally, Dr. Battle was the victim of a very amusing incident yesterday. A huge van, heavily laden, stopped in front of his residence, and the men in charge proceeded to unload the big army tent that is to be set up on the White Lot during Grand Army week. This is one of the largest tents used by the army, and is to be the central field hospital during the encampment. Orders for the painting of the big sign which is to hang at this tent were given today by Secretary Grant.

The Wild Strawberry.

From the Kansas City Times.

After the wild strawberry has been held up as the strawberry par excellence for generations, the New York Independent comes along and says it is all a myth. It is pure imagination, the article says, that wild strawberries were or are sweeter than the cultivated sort.

That assertion may pass unnoted by the man who has lived all his life on paved streets. But ask any man who, as a boy, went out in the early days of summer to the fields or roadside hunting for wild strawberries, and he will tell you that the wild strawberry is still the berry par excellence.

What memories they recall! Was there ever a strawberry hothouse or truck garden variety that could compare in sweetness or flavor to the strawberry of the countryside and field? Granting that old-time memories are faulty, ask the country boy of today. The verdict of the Independent is reversed on appeal to the great American tribune of boyhood. Nothing can dim the fame of the wild strawberry. It is still the berry par excellence.

Gathering War Trophies.

From the Memphis Commercial Appeal.

When the German soldiers entered Przemysl, after days of disastrous fighting, they forgot the tragedy in the glory of victory and threw off the strain of war for a momentary relaxation.

One of the first things many of them did was to buy souvenirs of the city for their families. They took to the streets and gathered up the little mementoes were worth little today, but they will be treasured heirlooms if they can be carried home and kept for future generations.

It is related that at the close of the civil war a Confederate transport held by the Federals had on board many cases of war munitions, which were either sold or confiscated by the government. Among other things were thousands of brass buttons intended for Confederate uniforms. They were knocked down for a trifle, and were of no value to the purchaser at the time. He could not sell them for a quarter of a cent each.

In New York a collector looked far into the future and bought the lot. He held them for many years before they attracted attention, but today, polished up, they bring a dollar apiece.

Time has erased the scars of war, and those who survive that unfortunate period are proud to purchase such a souvenir.

Curio dealers from England and the continent are reported to be in the vicinity of battlefields in northern France, endeavoring to buy trophies of the war, which they expect to sell at some time in the future will become valuable. They are dealers in the future. Souvenirs which they have been collecting today will bring a fortune fifty years from now.
